DETAILED ACTION

Election/Restrictions

Claim 1, which is generic to claims 2-15, is allowable for the reasons set forth below. Therefore, claims 6-8 and 10-15 have been rejoined and are also allowable based on generic claim 1 also being allowable. Claim 16, which is generic to claims 17-24, is allowable for the reasons set forth below. Therefore, claims 18-20 have been rejoined and are also allowable based on generic claim 16 also being allowable.

Allowable Subject Matter

Claims 1-24 are allowed.

The following is an examiner's statement of reasons for allowance: regarding independent claims 1 and 16, the closest prior art of record fails to teach or render obvious the claimed extreme UV light source comprising a means for producing a plasma in a temperature range in which 10-valent Xe ions occur where at least half the number of electrons are released from an Xe atom for emitting UV radiation with a wavelength of 13.5 nm from 10-valent Xe ions which form in the plasma.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
